

Personal Profile

Detail-driven Computing for Games graduate (BSc Hons, 2:1) from Falmouth University, combining programming and game programming foundations with practical team-leadership experience. Stepped into technical production roles during group collaborations to adhere to agile practices, manage builds, and bridge communication blocks between different disciplines. Recently completed the Google Project Management Professional Certificate to formalise this hands-on experience, and now looking to leverage this skillset in a Project Management or Producer role.

Certifications

- 2026 **Google Project Management Professional Certificate**, *Coursera*
Specialised training in Agile & Scrum methodologies, sprint execution, and artifact documentation.

Skills

- Project Management: Scrum Framework, Agile Development Pipelines, Kanban(Trello), Sprint Planning & Backlog Grooming, Milestone Scheduling, Waterfall.
- Risk & Project Documentation: RAID Logs(Risk, Action, Issue, Decision tracking), Project Charters, Meeting Minutes, Sprint Retrospectives, QA Lifecycle Tracking & Release Notes.
- Software & Platforms: Unreal Engine 5, Unity, Figma, Microsoft Office Suite.
- Technical Engineering: C++, C#, Python, OpenGL, Git/Version Control, SQL, R Studio.
- Core Skills: Stakeholder Communication, Cross-Discipline Collaboration, Conflict Resolution, Rapid Adaptability, Timeboxing.

Education

- 2022–2025 **BSc(Hons) Computing for Games**, *Falmouth University*, Falmouth, Upper 2:1
Key modules: Data Fundamentals, Computational Mathematics, Graphics and Simulation, Major Collaboration
- Completed simulation modules focused on industry-standard workflows and cross-team coordination
- 2020–2022 **BTEC Computing for Creative Industries & Physics A-Level**, *Longsands Sixth Form*, St Neots
Computing for Creative Industries BTEC (Distinction*Distinction*) and Physics A-Level (E)
- 2015–2020 **GCSEs**, *Ernulf Academy*, St Neots, 9 GCSEs at grade 7-4 including English and Maths

Experience

- 09/2024 - 05/2025 **Lead Programmer / Project Team Member(Simulated Industry Project)**, *Co-Operation*, Falmouth University
- Acted as the primary coordination point for a cross-disciplinary team of 10 members in a simulated AAA development environment, utilising Unreal Engine 5.
 - Spearheaded agile ceremonies, maintained sprint plans, and ran daily standups, proactively translating high-level objectives into actionable tasks to ensure on-time sprint delivery.
 - Managed end-to-end documentation workflows, including meeting minutes, sprint retrospectives, and risk/action trackers (RAID logs) to ensure seamless project visibility.
 - Led stakeholder engagement by presenting weekly build progress to supervisors, successfully assimilating feedback, and driving consensus on game features.
 - Coordinated internal asset reviews and managed the release pipeline. tracking the development of weekly builds while working cross discipline to optimise the project.
 - Demonstrated adaptability under resource constraints. When unexpected bottlenecks disrupted team availability, coordinated with the team to drop the scope from 4 levels to 3 to ensure a stable, polished, and on-time delivery.
- Itch.io:** <https://cheese-dynamics-games.itch.io/cooperation>
- 04/2021 - 09/2025 **Leisure Assistant**, *One Leisure*, St Neots, Cambridgeshire
- Supported daily operations for a high-traffic leisure facility, coordinating logistics to ensure on-time readiness for customer activities
 - Assisted management in event execution, demonstrating adaptability and a commitment to exceptional service in dynamic environments.
